Cretan Refugees' Relief Committee

DEAR SIR :

At a meeting of citizens, held on the 2d inst. at the Mayor's Office, his Honor appointed the undersigned Committee to solicit monies for the purpose of assisting the 15,000 women and children who have fled from Crete to Greece. These refugees need everything and their numbers are daily increasing. The Greeian Government is not able without outside help to provide entirely for these fugitives, whose natural protectors are fighting a glorious battle for country and faith. Drexel & Co. have consented to act as Treasurer, to whom subscriptions may be sent. In aid of this fund

MR. S. HUDSON CHAPMAN

A member of the Archæological Association of the University of Pennsylvania, the Geographical Society, the Photographie Society, etc., who has devoted years to the study of Greece and her manners, has volunteered to deliver an illustrated lecture on "Greece and the Ægean Islands," at Association Hall, 15th and Chestnut Streets, Wednesday, March 24th. The lecture will be illustrated with lantern views, beautifully colored, from original photographs taken by the lecturer. Two tickets for this lecture are herewith enclosed, in the hope that you will, to this extent at least, give practical expression to the sympathy that every American must feel for the Cretans in their gallant struggle by purchasing the same and attending the lecture.

You are earnestly requested to promptly remit for tickets to the Secretary in enclosed envelope.

Reserved seats may be procured at Fischer's, 1221 Chestnut Street, on and after Saturday, March 20th.

A. LOUDON SNOWDEN,

Chairman.
